Experience

JULY 2017 - PRESENT
Commerce House, Dallas, TX – *UX Designer/Front-End Developer*

Work with clients on a variety of digital projects while collaborating with account managers, strategists, designers, and developers to provide clients with a high-quality final product.

- UX:
  - Site maps, wireframes
  - User journeys, user flows
  - Information Architecture
- Front-End Development:
  - HTML email development including testing in Litmus and Silverpop
  - Develop banner ads using Google Web Designer and GreenSock
  - Work with development team on website requirements, development, launch, maintenance, and site updates
  - Manage content, site set up, and conduct client training

FEB 2017 - JULY 2017
YourCause, Plano, TX – *Product & Strategy Designer*

- Innovated User Experience Design from web to application design. Coordinated closely with product managers, engineers, and account managers to ensure smooth delivery, maximized team collaboration, and the highest possible product quality. Developed low and high fidelity prototypes as well as final visual design deliverables.
- My responsibilities included: user and use-case research, UX architecture, and UI design. Worked within existing style guides and patterns, while continuing to push the envelope for better user experiences.

AUG 2016 - FEB 2017
Ryon's Web Design, Allen, TX – *Web Marketing & Design*

- Worked with WordPress to create and maintain websites as well as their SEO. Managed multiple projects at once including troubleshooting, communicating with   clients, and keeping a consistent brand across the company's online presence. Designed mock-ups of websites for new clients.
